

## **BCNI Principal Investigator Profile**

**Name:** Derville O'Shea

**Current position:** Consultant Haematologist

**Contact:** Derville.oshea@hse.ie

**Role in BCNI :** Investigator

### **Background career information:**

Dr. Derville O'Shea is a Consultant Haematologist at Cork University Hospital and a Clinical senior lecturer in University College Cork (UCC).

She graduated from UCC in 1996, and trained in Haematology in Ireland and the UK.

She did a clinical fellowship in Stem cell transplantation in the Hammersmith Hospital London and subsequently completed her PhD on genomics in lymphoma, focusing on Follicular lymphoma, at St Bartholomew's Hospital and Queens University of London.

She then took up a consultant haematologist post in Addenbrooke's University Hospital, Cambridge, UK, specialising in lymphoproliferative disorders before returning to Ireland as a Consultant Haematologist in 2010. She currently manages all haematological malignancies with a special interest in lymphoma and CLL.

### **Research and Clinical Interests:**

Lymphoproliferative disorders.
